Unit 14

The Nest

Kate saw two birds making a nest in her garden.

They were high up in a tree. The two birds made the nest with twigs, moss and grass.

When the nest was made, one of the birds laid some eggs in it. Kate could not see the eggs, but she did not go too near the nest.

She did not want to scare the birds away.

One of the birds sat on the eggs to keep them warm. The other bird looked for food.

Soon the eggs hatched, and the birds had a family of chicks to look after.

The chicks grew up quickly and, one day, they all flew away.
